

The ENTity VL Stroboscopy Unit

- Plug-and-play addition to the ENTity Mobile FEES System
- Silent operation
- Convenient foot pedal controls
- Rolling “Slow Motion” phase and “Fixed” phase options
- No distal endoscope heating
- External Microphone

The ENTity VL Stroboscopy system provides a cost-effective, easy-to-add stroboscopy solution for ENTity MobileFEES users.

Simple to use, the VL Stroboscopy unit offers clinicians the ability to expand patient exam offerings with their current endoscopy system.

Images and video recording can be saved to patient files, along with FEES and other exams, for future review
